Requirements

Live-Virtual Courses

Students are required to attend and be involved in all class meetings, the emphasis being on participation in activities, discussions, and projects related to K-12 classroom implementation. Working with their instructor, students are required to produce a Learning Extension Project in the form of a research-based action plan/course project. Projects are due no later than two weeks after the last in-class meeting. The LEP submission deadline marks the conclusion of the course. The course will not be considered complete without submission of the project.

Online Courses

Students are required to complete all assignments within the deadlines of the online course. A Learning Extension Project will be due no later than 1 week after the published end date of the course. The LEP submission deadline marks the conclusion of the course. The course will not be considered complete without submission of the project.

Grade Report and Transcripts

Grade reports and any requested transcripts will be available from TCNJ approximately six weeks after the last published course end date.

If you need documentation of your grade by the end of or beginning of the following semester for any reason, please consider registering for a course that runs earlier in the semester.

Miscellaneous Fees

Drop/Add Fee

There is no charge for the first transfer in a semester. A \$10.00 administrative fee will be assessed for each subsequent transfer in a semester.

Returned Check Fee

\$30.00

NJ 100 Hours Requirement

Each 3-Credit Course: 45 Hours
Teachers who would like to apply credits earned in these courses to their NJ 100-hour professional development requirement should follow this procedure:

- Get approval from your District for the specific course to apply to your Professional Improvement Plan (PIP).
- Upon completing the course, have an Official Transcript sent from The College of New Jersey to the appropriate office at your District.

UDL: Transforming Learning through Technology and Design

EDIN536 - 3 GRADUATE CREDITS

Learner variability is the rule in today's fast-paced classrooms. Research suggests that it is no longer acceptable to design with an average learner in mind. Instead, we must design learning experiences and environments for ALL students. Universal Design for Learning (UDL) is a framework designed to personalize learning, proactively address learning challenges, and design with access in mind. This course provides participants with a fundamental understanding of UDL, how to design accessible lessons and infuse educational technology to personalize learning.

Artificial Intelligence for Educators: Navigating the Future of Learning

EDIN524 - 3 GRADUATE CREDITS

This course will provide educators with a comprehensive understanding of how artificial intelligence is transforming education. Participants will explore AI-powered tools, their applications in K-12 classrooms, ethical considerations, privacy and security concerns, and policies and regulations related to AI in education. Participants will learn how to use AI-powered tools to personalize learning experiences for students, automate administrative tasks, and collect and analyze data. Best practices for integrating AI in all classrooms, and strategies for evaluating the effectiveness of AI-powered education will be examined.
